## **Shoes That Correct Broken** Down Instep, Called Flat Foot,

This ailment is becoming more common as freak and ill-fitting shoes are accepted by many. Sooner or later such shoes will break down the instep and medicine won't cure or relieve. The only remedy is this "Foot Form" Boot.

Flat feet cause many other complaints and even diseases—nervousness, spinal trouble, even the eyes are affected. Artificial means have been studied to reach the result we have attained. There are steel braces, &c., called arch supports, but the only true solution is in our Foot Form Footwear. Relieves at once, cures in time. These shoes are expertly fitted by professional shoe fitters.
